

How to Prepare Your Yard for Wintering Birds

Don't tidy your yard too much. Some birds search for food in leaves and burrow in them to stay warm.

Leave the spent seed heads of flowering plants and the berries on bushes. The birds will come and gather the seeds and fruit.

Provide shelter for the birds.

Provide PLENTY of food and water for the birds. Make sure you are consistent with putting out food. Birds are depending on you to help them survive the winter.
